Fun Facts about Purim

Learn more about this Jewish holiday

Many people are not familiar with the Jewish holiday of Purim. Purim centers around the story of a man named Haman, a king's adviser who planned to draw lots to determine which Jewish people he should kill. The king's wife, Esther, told the king of this plan, and therefore saved the Jewish people. On the surface this holiday doesn't sound very festive, but read on to discover a few fun facts about Purim.

Guide to External Hard Drives

Need to back up your files? Get an external hard drive.

When it comes to computer hardware, there is a common concern - whether you are talking about the average consumer or a large corporation. That concern is safety, in particular, the safety of files. In simple

terms, no one wants to lose their files, pictures, videos or music due to hardware failure.

Save money on your future electric bills with an independent review

As the record-breaking winter weather clears in most areas of the country, many families are experiencing higher-than-usual energy usage. This additional energy consumption not only leads to expensive energy bills, but can be damaging to the overall environment. Consider conducting an energy audit of your home to save on future bills. Many energy providers offer audits to their customers at no charge, but if yours doesn't, consider spending an afternoon conducting your own home energy audit.
