

Policy FOR THE PEOPLE

Presented by the Green Ambassadors Institute, the Learning Lab of Environmental Charter Schools

HOW CAN K-12 TEACHERS AND STUDENTS ENGAGE IN LOCAL ENVIRONMENTAL POLICY IN THIS TIME OF NATIONAL UPHEAVAL?

National politics got you down? We have good news. Real policy change is happening at the local level. Join us for concrete examples of city, county and statewide initiatives related to climate change, water quality and clean energy. Leave with inspiration, information and tools to help you and your students engage in meaningful, local policy change.

LET'S TALK POLITICS: LOCAL ACTION LEADS TO BIG CHANGE
NOVEMBER 21, 2017 8am - 3pm

SPEAKERS **NOAH GARRISON** (IoES at UCLA), **LINDA ESCALANTE** (NRDC), **BRUCE REZNIK** (LA Waterkeeper), **DYLAN GASPERIK** (Tigercomm), **DR. JEFF SHARE** (UCLA, Co Author of *Teaching Climate Change*), **MATTHEW KING** (Heal the Bay)

DON'T STOP THERE!

Join us on **February 2, 2018** and **May 12, 2018** for deeper exploration and additional support in engaging in local policy change. More info at WWW.GREENAMBASSADORS.ORG/REGISTER.

BACKGROUND

Green Ambassadors Institute — the learning lab and professional development incubator of Environmental Charter Schools — invites K-12 educators, university partners, community leaders and policymakers to summits that explore best practices in environmental education, service learning and urban sustainability. Through collaborative workshops, curriculum and hands-on field trips, educators and community leaders from across Southern California co-create youth-led environmental sustainability solutions.
